

PRC SERIES

NEW HIGH POWER

LED PROJECTOR

COMPACT

OVER 10W

UNIFORM

DIMMABLE

NEW HP low cost compact array. Ideal for inspect large areas with high intensity light. This versatile system allows to use it for general vision, direct, dark field, low angle.

CHARACTERISTICS

- High intensity. 4 HP LED.
- Compact 75x66x71.5mm.
- Thermal protection.
- On/Off input.
- Dimmable with a PWM signal.
- Three viewing angles:
 - Narrow 10°.
 - Medium 30°.
 - Wide 45°.
- Polarizing and diffuse filters available.
- Until 80.000 hours.
- 24VDC input power.
- Low consumption, 450mA.
- Metallic chassis connector.
- Wire included.
- CE Certified and RoHS compliant.

APPLICATION

Robotic applications.
Packaging.
Web inspection.
Palletizing.
Label inspection.

COLORS

- White
- Blue (470nm)
- Green (525nm)
- Red (635nm)
- Other under request

The new PRC series is an indispensable tool for vision. Compact, robust, bright, uniform... Feel free for asking about more information.
